**Ann Pushee Earns Certification in Computed Tomography from
American Registry of Radiologic Technologists**

Woodsville, NH -- Ann Pushee, RT (R.)(MR) at Cottage Hospital has recently been certified in Computed Tomography (C.T.) by The American Registry of Radiologic Technologists, ARRT. In earning this credential, she adds the initials "[CT]" after her name.

Ann completed her Radiographic training at Maine Medical Center and has 29 years experience in diagnostic Radiology, MRI and CT imaging. She joined the Diagnostic Imaging Team at Cottage Hospital in 2003.

ARRT's credential assures patients that Registered Technologists who conduct medical imaging and radiation therapy procedures have completed the prescribed educational preparation, passed the appropriate exam, and pledged to abide by stringent ethics requirements — all of which assist them in delivering safe and effective patient care. ARRT ensures their continuing education and ongoing ethical compliance by requiring annual registration of certificates.

ARRT, The American Registry of Radiologic Technologists, promotes high standards of patient care by recognizing individuals qualified in medical imaging, interventional procedures, and radiation therapy. Headquartered in St. Paul, Minnesota, ARRT tests, certifies, and annually registers more than 250,000 radiologic technologists across the United States.

Cottage Hospital is a 25-bed, Critical Access Hospital, serving the beautiful Upper Connecticut River Valley. For additional information regarding Cottage Hospital and any of our services visit us on the web at www.cottagehospital.org or call (603)747-9000.
