Laramie Bobar Earns Certification in Computed Tomography

Woodsville, NH – Cottage Hospital's Laramie Bobar, RT (R.) has recently been certified in Computed Tomography (C.T.) by The American Registry of Radiologic Technologists, ARRT. In earning this credential, he adds the initials "[CT](ARRT)" after his name.

Laramie graduated from the Radiology Imaging program at Lebanon College, and earned his first ARRT credential shortly after joining the Cottage Team.

ARRT's credential assures patients that Registered Technologists who conduct medical imaging and radiation therapy procedures have completed the prescribed educational preparation, passed the appropriate exam, and pledged to abide by stringent ethics requirements — all of which assist them in delivering safe and effective patient care. ARRT ensures their continuing education and ongoing ethical compliance by requiring annual registration of certificates.

ARRT, The American Registry of Radiologic Technologists, promotes high standards of patient care by recognizing individuals qualified in medical imaging, interventional procedures, and radiation therapy. Headquartered in St. Paul, Minnesota, ARRT tests, certifies, and annually registers more than 250,000 Radiologic technologists across the United States.

Cottage Hospital is a 25 bed, critical access hospital serving the beautiful Upper Connecticut River Valley. For additional information regarding Cottage Hospital and any of our services visit us on the web at www.cottagehospital.org or call (603)747-9000.
